Decker Electric

Chris Motter

Decker Electric is sorry to announce that Chris Motter, a former electrician with Decker Electric lost a 17 month battle with cancer. He was a friend to many of us here and will be missed greatly. We extend our most sincere thoughts and prayers to his friends and family.

Complete Ninnescah Rural Energy Cooperative

The new facility of Ninescah Rural Electric Cooperative is now complete. A great thanks to NREC and Paric for the opportunity to be a part of this greenfield project. The project moved smoothly thanks, in large part, to David Sanders (Paric PM) and Keith Fuller (Paric Site-Superintendent). The Decker Electric onsite management team was led by Chris Brewer for the first half and Clint Allmon for the second half of the project. Chris and Clint led their diligent on-site team to complete a project with a large scope of work: telecom, IT room, access control, security, CCTV, intercom, fire pump system, UPS, large site lighting poles, generator, fuel station, etc. Great job Decker Electric team!!!

Staff 10 Years

Thank you Nick England for 10 years of continued service at Decker Electric!

Progress Denton Energy - Grounding and Ductbank

Decker Electric is pleased to announce the start-up of the Denton Energy Project with UCI. John Ramey will be leading the field supervision and coordination team accompanied with John Teeter. Pre-fabrication has been ongoing the last few weeks. Ductbank excavation began this past Thursday on February, 23rd. We are excited to team up with UCI and some of our key pre-fabrication team players including ICM and Thompson Brown Inc.
