Decker Electric

Progress

East Kansas Agri Energy Renewable Plant

Crews are continuing to work on the Renewable Biodiesel Plant at East Kansas Agri Energy. This addition is a fast-track design build project led by foreman, Christian Ray.

Staff

Notable Work Anniversary

A big thank you and congratulations to Jesse Robinson for **10 years** at Decker Electric. Jesse is currently leading the crew at the Ammonia Plant in Geneva, NE.

Progress

Anhydrous Ammonia Project

Jessie Robinson is leading the crew at the Anhydrous Ammonia Plant in Geneva, NE. Decker Electric is currently up to over 60 electricians working around the clock alongside the Gorham Group.

Progress

UPRR North Platte

Bryan Wallace, Wayne Cooper and Sterling Kemp just finished pouring the Generator pad and Transformer pads up in UPRR North Platte, NE. Power Line Solutions will be installing overhead line work while Decker Electric finishes pulling wire and terminating equipment at UPRR Signal Cabins.

Bryan Wallace and Wayne Cooper successfully installed a 250kw Generator in North Platte, NE.
